## The Old Bachelor.

BY JOSH BILLINGS.

A chronick old bachelor iz invariably ov the neuter gender, don't care how much he may offer tew bet that it aint so

They are like dried apples on a string—want a good soaking before they will do to use.

I suppose there iz sum of them who have a good excuse for their naterness; many of them are too stingy to marry. This iz one of the best excuses I kno ov, for a stingy man aint fit tew have a nice woman.

Some old bachelors git after a flirt, and can't travel so fast as she doz, and then conkludes awl the female group are hard to ketch, and good for nothing when they are ketched.

A flirt is a rough thing to overhaul unless the right dog gets *after her, and then they are* the easiest ov awl to ketch, and often make very best ov wives.

When a flirt really falls in love, she iz as powerless as a mown daizy.

Her impudence then changes into modesty, her cunning into fear, her spurs into a halter, her pruning hook into a cradle.

The best way to ketch a flirt iz tew travel the other way from which they are going, or sit down on the ground and whistle some lively tune till the flirt comes round.

Old bachelors make the flirts; and then the flirts get more than ever, by making the old bachelors.

A majority of the flirts get married finally, for they have a great quantity of the most dainty titbits of woman's natur, and alwus hav shrewdness to back up their sweetness.

Flirts don't deal in poetry and water grewel; they hev got tew hav brains, or else somebody would trade them out of their capital at the fust sweap.

Disappointed luv must ov course be all on one side, and this aint eny more excuse fur being an old bachelor than it iz for a man to quit awl kinds of manual labor, *jist out of* spite, and jine a poorhouse bekause he kan't lift a tun at one pop.

An old bachelor will brag about hiz freedom to you, hiz relief from anxiety, hiz independence. This iz a dead beat past resurrection, for everybody knows their aint a more anxious dupe than he iz. All his dreams are charcoal sketches of boarding-school misses; he dresses, greases his hair, paints his grizzly mustach, cultivates bunyons and corns, tew please his captains, the wimmen, and only gets [illegible] at for his pains.

"I tried being an old bachelor till I waz about twenty years old, and came very near dieing in a dozen times. I had more sharp pain in one year than I have had since, put it all in a heap. I was in a lively fever all the time.

There is only one person who has inhabited this world thus far that I think could been an old bachelor and done the subject justice, and he was Adam; but I hold it is every man's duty to seleckt a partner and keep the dance hot.

BUSINESS IN SAN FRANCISCO.—The *Bulletin* of May 26th says:

Our merchants generally complain of dull times. After making due allowance for chronic fault finding, it must be confessed that the business outlook is not so encouraging as could be desired. The season is now well advanced, without developing any special activity in trade circles. And yet goods keep moving, if indeed it be in a small way, as is evinced by the cargoes daily borne hence by river, bay and coast steamers and the railroad lines. We imagine that the evenness of trade, more than the absolute want of it, has led many to suppose that the current season is un[illegible]ly dull. We shall probably never enjoy a return of that spasmodic activity with which business in this city was wont to be characterized. Nor is such a return necessary or desirable. We [illegible] to that the results of the year, when they come to be aggregated, will form quite as respectable a showing as in previous years, and hence the balance sheet will probably exhibit the usual amount of profit. The general markets continue to be well supplied with all the leading staples. We can call to mind no important article of merchandise in which there is a felt deficiency.

GIVE HIM AN OFFICE.—The Copperhead organs have howled terribly because of the removal of Wm. Neely Johnson, as Register of the Sacramento Land Office. Now, if the Copperheads have so much sympathy for Wm. Neely Johnson why don't they do something handsome for him? He has [illegible] blind many years, but have the Democrats ever offered to give him an office? There are State offices which the gentleman might fill, and why has one not been given him? There are [illegible] at the State Capitol, and why not give Mr. Johnson a situation? Why not [illegible] nate him for Supreme or District Judge this fall? What Dem[illegible]atic aspirant, now shedding [illegible] tears over his removal, who wants to be J[illegible], who will decline in his favor?—*Marysville* [illegible]

### THE APPETITE FOR TOBACCO DESTROYED!

LEAVE OFF SMOKING AND CHEWING THE POISONOUS WEED, TOBACCO.

### ORTON'S PREPARATION!
**ESTABLISHED 1866.**

One box of Orton's Preparation is warranted to destroy the appetite for Tobacco in any person, no matter how strong the habit may be. *If it fails in any case the money will be refunded. It is perfectly safe and harmless to all.* It is almost impossible to break off the use of Tobacco by the mere exercise of the will. Something is needed to assist nature in overcoming a habit so firmly rooted. With the help of the Preparation there is not the least trouble. *Hundreds* have used it who are willing to bear witness to the fact that Orton's Preparation completely destroys the appetite for Tobacco, and leaves the person as free from any desire for it as before he commenced its use. The Preparation acts directly upon the same glands and secretions affected by Tobacco, and through these upon the blood, thoroughly cleansing the poison of Tobacco from the system and thus allaying the unnatural cravings for Tobacco. *No more hankering for Tobacco after using Orton's Preparation. Recollect it is warranted.*

The time taken to destroy the desire for Tobacco by the use of the Preparation varies [illegible] in different persons, the *average* time being about *five days*. Some have no desire for Tobacco whatever after using the Preparation *two days*.

The *Health* and *Purse* of every Tobacco user in the country calls loudly [illegible]

RECOMMENDATIONS.

The following are a few selected from the multitude of recommendations in our possession.

We the undersigned hereby certify that we have used Orton's Preparation for the purpose of destroying the appetite for Tobacco, and can assure those who are suffering from this habit that Orton's Preparation will certainly destroy the appetite for Tobacco *quickly and permanently, and without any bad effect* upon the health and without creating an appetite *either for the Preparation or any substitute.*

*From Samuel Cessidy, Editor Journal & Argus.*

PETALUMA, CALIFORNIA, Dec. 14, 1868.

For about twenty years I had used Tobacco in its various forms, and for the past eight years had been an inveterate smoker. Becoming satisfied that the excessive use of this narcotic was seriously impairing my health, I determined if possible to check myself of the habit. Hearing of Orton's Preparation for destroying the appetite for Tobacco, I sent to Portland, Me., for a box of the medicine which I received through the mail on the 17th of November. A month has not elapsed and yet the medicine has effectually relieved me from any yearning or desire to use Tobacco in any form. The Preparation is not more difficult or unpleasant to take than to commence chewing gum. I conscientiously believe the Preparation will have the promised and desired effect in every instance where it is given a fair trial. Upon that belief and from an honest desire to assist those who wish to break away from the slavish appetite for Tobacco I offer this testimonial.
SAMUEL CESSIDY.

*Beware of Counterfeits and all articles purporting to be like this, of the same name or otherwise. The great popularity of Orton's Preparation has induced unprincipled persons to attempt palming upon the public counterfeit and inferior articles. Purchasers will please order directly from the Proprietor, or his duly authorized Agents.*

The price of Orton's Preparation is $2 per box, or three boxes for $5, sent by mail to any part of the country securely sealed from observation, with postage paid on receipt of price.

*How to send money by mail.*—Enclose the amount in a letter, seal carefully, register the letter and take a receipt for it of your Postmaster. Money sent by mail as above directed at my risk. Address

### HIRAM SMITH'S

### Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.
It CURES the most stubborn and inveterate cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, *FILMS, &c., as has been sufficiently demonstrated* during the few months to which it has been brought into public notice. The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.
It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon and its vicinity to which the following persons will bear witness:

E. B. MOORE, NATHANIEL BELL,
A. L. WALLACE, G. R. WARD,
Mrs. MONTGOMERY, JOHN M. HOLLOWAY,
W. D. PORTER, ROB'T RAMSEY,
And others in that vicinity.

Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan.

### TO THE UNFORTUNATE.
**NEW REMEDIES. NEW REMEDIES.**
**Dr. Gibbon's Dispensary,**

**623** KEARNEY STREET, NEAR COMMERCIAL.
San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

**Horrible Diseases.**

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, [illegible] ted and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies, that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

**Seminal Weakness.**

Seminal Emissions the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, un[illegible] about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, feted breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails in effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

**MARRIED MEN,**

Or those who contemplate marriage, who are [illegible] under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay [illegible] obtain immediate relief.
DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

**CURED AT HOME.**

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, [illegible] medicines promptly forwarded, free from [illegible] curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

**Caution to the Unfortunate.**

Beware of the San Francisco quacks and [illegible], who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and become too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid [illegible]tion is to make enquiry—it will cost you nothing, and may save you many regrets, for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended [illegible] letters etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

THE UNITED STATES BUILDINGS.—We stated the other morning that Gen J. H. Holman, superintendent of the construction of the Astoria Custom House, did not arrive by the *Continental*. We have since learned that he did arrive. His name appeared in the passenger list as Jos H. Holmes, *which was the cause of the error*. He is ... as Supervising Superintendent of Construction of all the public buildings to be erected at Astoria, Portland and Dalles. He stopped for a day or two at Astoria to learn the situation there, the facilities for procuring material, etc., and then came on to Portland. He will leave in a day or two for the Dalles, to examine affairs connected with the building of the branch mint. The law providing for the U S Court and postoffice building at this city specifies brick as the material. Gen Holman, however, favors the use of stone, and as he is authorized to change the plan in that respect, if he should think proper, he will visit the quarries in this vicinity, and particularly the one on the Clackamas, before the work will be commenced. If he find it practicable to procure stone at an expense not too much above that of brick, he will change the plans, and build of stone. The work will be undertaken as soon as this preliminary survey shall be made. All the superintendents of construction are to be wholly under his direction even should he ... instructions from the home department.

FROM OREGON CITY.—The subjoined items are from the *Enterprise*:

The foundation for the hall of Oregon Lodge No 3, I. O. O. F., in this city, was finished on the evening of June 1st. The brick work will be continued, and the building finally completed this year.

## REPLY.

PORTLAND, June 7, 1869.

GENTLEMEN—In behalf of the Portland Philharmonic Society, we gratefully acknowledge the receipt of your estimable favor of the 1st inst. This Society cheerfully accedes to your request and will be at your service Friday evening, June 11th, 1869, at Oro Fino Hall. The members severally desire us to express to you their sincere thanks for the generous support vouchsafed the Society by yourselves and others of our friends during the past three years. The Concert Programme will appear in the newspapers of Thursday morning next.

Obediently Yours,
S. J. McCORMICK, President.
E. QUACKENBUSH, Secretary.

VALUABLE TESTIMONY.—The following recommendation comes from a source of such well known and indisputable character, that it requires no comment beyond its publication:

I have given '*Kane's Imperial Condensed Soap*' a thorough and impartial trial, and am satisfied it will do all that is claimed for it. I washed three dozen white shirts, using half a bar of soap. It did its work well, requiring no rubbing, and I cheerfully recommend it as the best Washing Compound I ever used.
S WHITLEY.
Victoria, May 18 1869

CALIFORNIA GUNPOWDER WORKS.—These works, at San Francisco, advertise this morning, a reduction of *twenty per cent on all grades of powder*. Twenty per cent. is worth saving, and we advise dealers to read the advertisement.

We have at our Rooms on hand an article of Old O. K. Cutter Whisky, to which we call the attention of customers, "and defy competition." One call at the International Saloon will be enough to satisfy the most fastidious. JOHN S. SIRKY & CO.

PIONEERS ATTENTION!—Regular meeting of your club this (Monday) evening at eight o'clock sharp. A full attendance is desired, as there is business of importance to be transacted.

**THE MAMMOTH OX!**
TO THE PEOPLE OF OREGON. LOOK TO YOUR INTERESTS!
F. M. MORRIS AND W. C. AVERY,
BOTH OLD OREGONIANS AND HAVING, NO doubt,
THE LARGEST OX IN THE WORLD!
proposes to the people of Oregon to take this Monster OX to the Atlantic States and exhibit the same as an Oregon production, and before leaving the State they will give every man, woman and child to see
Mt. Hood upon Legs!
and in order to give them an opportunity, they will exhibit him in the principal towns on the Willamette, for the sum of 25 cents, children half price. Their object in doing this is to raise the necessary cash to pay transportation. All those who think it would have a tendency to wake up the people of the Eastern States to realise the fact that there is such a place as Oregon on the Pacific Slope, and that not only large cattle but every thing else is far in advance of the rest of the world, and that all that is required is industry and economy to realise a fortune in Oregon in a few years at most—and the best place to enjoy life after you have accumulated a fortune.
Business men—make a note of this and remember—MONEY MAKES THE OX GO, and patronize accordingly.
The MAMMOTH OX has been removed to the corner of Morrison and Third streets, where he can be seen through the day and until 10 o'clock at night.
W. C. Avery will also have a supply of MRS STIPP'S THORACIC BALSAM on hand. m27dtf

CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS. 625 AND 627 FRONT ST.
HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.
The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling ... of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.
BEWARE OF COUNTERFEITS.

### In General.

Wendell Phillips piquantly says: "The United States lavishes thousands of millions of dollars in an endeavor to deal with the ideal Indian; he never existed."

Laird, the builder of the rebel ship *Alabama*, has published a letter in which he attempts to defend himself for that act, and charges negligence upon the British Government in allowing the ship to escape. This is a strong indictment against the British Government in the pending controversy.

While demagogues are trying to make workingmen in the United States believe that their present lot is one of peculiar and intolerable hardship, European operatives are looking to this country as their promised land. A large number of factory hands thrown out of employment in various manufacturing districts of Great Britain are looking anxiously westward for new homes. The unemployed operatives of Lancashire contemplate emigrating in a body.

The St. Louis *Democrat* remarks that the recent rise in gold puzzled the financiers—and no wonder. It was a refutation of a theory generally cherished by financial writers, that bonds and greenbacks rise and fall together. For the first time bonds were steadily rising while greenbacks were falling. April 5th, gold was 131, so that greenbacks were worth 76. During the month of May greenbacks declined ten cents on the dollar, while bonds at the same time reached a higher figure than ever before.

The *Herald* says: "We notice that C. B. Bellinger, Esq., has become joint publisher with Mr. Brown, of the *States Rights Democrat*. By gleaning over the editorial column, we can detect the fact that his pen is already engaged in the good work. Mr. Bellinger is one of the very best writers the press of this State ever possessed. His style is clean, concise, vigorous and piquant. As a Democrat, he is sound in the faith. It is therefore with pleasure that we welcome him to the rank editorial." We heartily concur in this tribute to the abilities of Mr. Bellinger, and remark further that he is the same gentleman who was forced to withdraw from the editorial chair of the *Herald*, because he was too independent and spirited to submit to the dictation of a "Ring."

### OREGON.

The total number of pupils in the public schools of Salem is 365.

The demand for lumber at Salem is so great that the local mills are unable to supply it.

At nearly all the towns in the State the people are getting up Fourth of July celebrations.

A strawberry festival for the benefit of the Presbyterian Church at Eugene City yielded $130.

The Spiritualists will hold a three days' meeting near Belpassi, commencing on Friday, the 18th inst.

Rev. T. H. Martin, for some time pastor of the Baptist Church at Eugene City, has gone to Salem to take charge of the Baptist Church there.

The *Herald's* last attempt to prove the superiority of the white race consists of a vigorous attack on a dead Chinaman. The *Herald* is ecor agecus.

The people of Polk county propose to have two celebrations, one at Independence and the other at Dallas. The first will celebrate on Saturday and the latter on Monday.

The Albany *Democrat* says: The grain crop of Linn county, from present indications, will approximate one million bushels this year. Are there two counties in the State that, combined, can beat it?

The funeral of Mr. Huntington at Salem on Saturday was an impressive one. Business houses generally were closed and the procession was large and imposing. The services at the residence were conducted by Rev. Mr. Knight, of the Congregational Church. The ceremonies at the Cemetery were conducted by the Masonic order, of which he was a member.

A Salem paper says: The road from Wallamet valley to the ocean beach at Salmon river, is now in good repair, and pleasure seekers can now pass over it in carriages or buggies. This road is the only one by which parties from this valley can reach the coast with wagons. There is also nine miles of beautiful sand beach, as hard and level as a house floor. Camping places, grass and water are as fine at this resort as one could desire. The throng going over to the coast this summer will be numbered by hundreds.

Elizabeth Baxter thus advertises in the *Unionist* her scamp of a husband: All persons are warned against one F. M. Baxter, my husband, who deserted me at Buena Vista, Polk county, for another woman, after living with me 14 years, and leaving me with two children, and myself suffering with rheumatism and ill health, and in destitute circumstances. Said Baxter is about five feet eight inches high, dark complexion, dark hair and black eyes, weight about 160 pounds, and aged 32 years. Also has a peculiar straight walk.

### THE WEST.

Two Indians were burned to death last week in a cabin at Seattle. Both drunk.

A stage runs regularly from Olympia to Tacoma. Thus each of those places has become a "terminus."

A young lady near Olympia has been badly poisoned by chewing the stem of iris flowers; and a stage driver, who chewed a leaf of the same wild plant, also suffered severely.

The time table of the Central Pacific Railroad has been so changed that passengers leaving Sacramento will arrive in Omaha on the Missouri river, in four days and three hours.

The iron clad monitor *Camanche* is on the dry docks at San Francisco, for the purpose of being prepared for service, if needed. The *Monadnoc* will also be docked as soon as the *Camanche* is finished.

The Japanese bamboos, mulberry and vegetable wax trees, etc., now coming to California, are kept alive and in vigor by grinding together earth and carrots and enwrapping the roots with the mixture.

The San Francisco Democratic County Central Committee recently resolved to appoint the seventy delegates to the State Convention and not allow the party to have a voice in selecting delegates to represent them in the June Convention. This is causing great trouble in camp.

A San Francisco paper says: A private in the United States Engineer Corps, stationed at Yerba Buena Island, has invented a patent cream skimmer. This consists of a sort of fine sieve, formed by stretching a piece of muslin over a hoop or rim made to fit the milk pans, the milk is poured into the sieve, and when it has stood long enough to form cream, the sieve is lifted, and with it comes all the cream, which is emptied into vessels ready to receive it. It is a very simple, perfect, and cheap contrivance.

About fifty million cigars are made annually in San Francisco. The Stockton *Independent* says: As it is hardly probable that these reach the consumer at less than twenty dollars per thousand, it is apparent that fully one million dollars per annum are wasted on inferior cigars of San Francisco manufacture. How many millions of those cigars are bought at the rate of 'three for a half,' puffed by self styled connoisseurs, and pronounced a "day-vlish fine see gaw,—Havanah, by Jove!" with an air of wisdom that would shame the most venerable owl.

PHILHARMONIC.—We learn that the Philharmonic Society has decided to give another concert soon, repeating the programme of the concert of the 28th ult. The Society has also accepted an invitation to sing on the 4th of July at the public exercises.

(DISPATCHES TO THE OREGONIAN)

### DATES TO JUNE 6.

### LAST NIGHT'S DISPATCHES

#### Washington News.

WASHINGTON, June 5.—The President has made the following appointments: C. C. Andrews, Minister Resident at Stockholm; J. L. Graham, Consul to Florence; Chas. R. Mobley, Attorney for Southern District of Florida; J. H. Lynch, Surveyor General for Louisiana.

Attorney General Hoar submitted a lengthy opinion in which he says to first no reason in the law for the President withholding his approval from the findings of a military commission in the case of James Weaver, a citizen of Texas, convicted of murder and sentenced to be hanged. The question involved was whether a military commission in Texas, in Sept. 1868, has jurisdiction over a citizen not in the naval or military service. Authority therefor is found by the Attorney General in the statute of March 2d, 1867, placing certain rebel States, including Texas, under military control, which act was operative in Texas because she had not adopted a constitution in conformity with the provisions of the act, and all acts of Congress are to be presumed constitutional unless the contrary plainly appears.

John W. Sangston having declined the Mission to Liberia his brother Charles has been appointed in his place.

#### St. Louis Dispatch

ST. LOUIS, June 5.—J. E. Somerine was arrested yesterday as a party to the robbery of the First National Bank at Clearfield, Pa., May 12th, of about $20,000, and left last evening for the East in charge of officers and the cashier of the bank.

Despatches from Hays city, Kansas, say that a mail train which left Sheridan yesterday morning was run off the track by Indians four miles west of Grinnell. A considerable number of Indians were near by while the track was being repaired, and shots were fired by both Indians and persons belonging on the train, but no one was hurt. Lieut. Low, with troops of the seventh cavalry, encamped near the mouth of Ash creek, saw and pursued the Indians several miles but they always escaped. Col. Weir has just returned to Fort Harney from pursuit of the Indians who committed the outrages on Fertile creek. He did not overtake them, and another scouting party was sent out by Gen. Custar yesterday morning. About 100 Indians were seen last evening within one mile of Sheridan, with a red flag hoisted.

A dispatch from St. Joe, Mo., says Frederick Freeman, President of the Southern Immigration Society, passed through here this evening on his way to commence a lecturing tour through the Southern States with a view to the introduction of Coolie serfdom throughout the South.

#### Trade of Cincinnati.

CINCINNATI, June 5.—The Secretary's report of the Cincinnati Board of Trade, at its first quarterly meeting to-night, showed a membership of 74 individuals and 84 firms, comprising 233 names with joint stock manufacturing companies, 9 banks, 2 express companies and 2 insurance companies, making a total voting membership of 300. A report setting forth the discriminations made by certain railroads against Cincinnati in transporting freight West and South, was read and filed.

#### Tennessee Politics.

NASHVILLE, June 5.—Col. Stokes opened the gubernatorial canvass to-day at the Capital in a three hours' speech on the question of enfranchisement. He said that he stood by his record, and referred to a letter written by him in July last, in which he said he was not in favor of universal suffrage and never had been. He didn't know if ever he should be. He was in favor of giving the ballot to rebels only when it could be done with safety, and then by a two-thirds majority of the Legislature. He also referred to his speech here in reply to Johnson, and reiterated the views therein expressed. He claimed that his policy was in accordance with that of the party as shown in the Fourteenth Amendment, authorizing Congress to remove political disabilities by a two thirds vote.

At the conclusion of Stocks's speech Governor Senter gave his views. He regarded Stokes' policy on enfranchisement as not sustained by the Chicago platform. If elected, as he felt sure he would be, he would recommend the Legislature to take steps to remove the disabilities of every paying citizen. The Governor's speech gave great satisfaction to his friends. Both gentlemen seemed confident of success.

#### Tragedy in Virginia.

NORFOLK, June 5.—John Murfray, a respectable citizen of Portsmouth, was shot dead by Alex. Perry whom he suspected of seducing his daughter, and at whom he fired the first shot with slight effect. Perry was bailed for his appearance on Monday.

#### Miscellaneous.

NEW YORK, June 5.—At the Jerome Park, in a hurdle race for a purse of $5,000, a mile and three-quarters, over six hurdles, six horses ran. Harvey Booth was winner, time, 3:25.

Vonlow, a well known actress, died yesterday, aged 79.

It appears that it was the uncle of the Cuban General Quesada, who was lately captured and shot.

Thomas McIntee was arrested here, charged with committing forgery at Omaha, to the amount of from thirty to forty thousand dollars. It is also asserted that he deserted his family and brought here a young girl from Michigan, whom he had seduced.

Application for filing bonds to secure the release of the *Quaker City*, has gone over till Monday.

Robert Boyd and Geo. J. Delaney, postoffice clerks, were to-day sentenced respectively to ten and three years' imprisonment for embezzling money letters.

NEW YORK, June 5.—The Executive Committee of the Society of the Burnside Expedition and the Ninth Army Corps, has designated the 7th of July as the time and Rocky Point as the place for holding the annual reunion.

AUGUSTA, Ga., June 5.—The *Gazette* states that an insurrectionary plot has been discovered by a negro, having for its object the burning of the town of Lexington, the county seat of Oglethorpe county, and the massacre of its inhabitants. The Sheriff and posse while arresting negroes said to be implicated were resisted by a man whom they shot and killed.

PHILADELPHIA, June 5.—Two policemen of this city have been arrested and held to bail for trial on the charge of entering two houses last night and beating the inmates almost to death, breaking furniture, &c. The sufferers were colored persons and the assailants newly appointed officers.

HALIFAX, June 5.—Harker and Thomas, two negroes, convicted of murder of a colored man named Wood about a year ago, were executed to-day.

### BY ATLANTIC CABLE.

LONDON, June 5.—The temperate speech of Clarendon in the House of Lords, elicited the following comments from the London journals this morning:

The *Times* says, for our part, considering the demands of America and the ready concessions of England, we wonder the latter got off so well. The rejection of the treaty was more a lucky chance than the result of firmness of any body engaged in behalf of Great Britain.

The *Standard* says, the negotiations for the Alabama treaty failed because America never intended them to succeed. If England now admits that it is her duty to renew her efforts for a peaceful settlement, it is without hope. Our honest desire for such a settlement will not be appreciated but by a small section of the American people. Meantime, until the details of Mr. Motley's mission is known we should fold our hands and limit our complaints to him as a great historian.

The *Star* says Americans cannot longer doubt our willingness to do right and determination to preserve our national character.

LONDON, June 5.—The *Times* regards the speech of Clarendon as neither defiant nor subservient, but as dignified by firmness which expresses the national determination and shows that what may be solicited with success is contained in Sumner's speech. England will never put troublesome pressure on Motley to hasten the completion of his task, but always be ready to to cancel every trace of angry feeling likely to disturb relations of kindred nations.

PARIS, June 5.—Mr. Washburne, the American Minister, is indisposed and will go to Hamburg. He leaves Hoffman, first Secretary, in charge of the Legation.

Marquise Lavallette officially declared that the warlike rumors published in newspapers recently, are without foundation.

VIENNA, June 5.—The Military budget is published. The estimate of the expenditures are $5,000,000 in excess of last year, and are calculated on the basis of an army of 800,000 men.

### OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, June 6.—Telegrams have been received stating that Senator Casserly will arrive here via the Pacific railroad to-morrow evening. Preparations for his reception are in active progress.

George Francis Train held forth to an immense audience last night. He abused the press who did not notice him enough, and condemned the editor of the *Call* to be hanged for not siding with his greenback views. He dealt with the Bank of California very gingerly and endorsed the change of officers in the Mint.

Wm. Larkin has sued C. H. Bradford and others comprising the association known as the San Francisco Stock and Exchange Board, to recover $50,000 damages for alleged slander and defamation of character.

F. A. Mann has sued Chas. McLaughlin to recover $65,678 90, due for work done upon the Western Pacific railroad.

The Potrero railroad is reported to have been sold to the Southern Pacific Railroad company.

### The Shooting Affair at Vancouver.

STATEMENT OF THOMAS J. FLETCHER.

ALTA HOUSE, VANCOUVER, June 4th, 1869.

FELLOW CITIZENS: I have but a few days ago just escaped murder by the hands of a set of cold-blooded assassins prompted solely by the blackest malice, and egged on by a few unprincipled designing demagogues, who, it seems, stop at nothing in order to obtain political power and place, and who have in the last extremity sought assassination as a means to destroy the vote and influence of one who is openly opposed to their corrupt and selfish political schemes, and who had the manly courage to boldly declare his intention to cast his vote and influence in favor of what he believed to be just and right, and for the man who in his opinion had more ability and could exert more influence in Congress for the good of the Territory than any other man in it.

I believe the fundamental principles of Democracy to be right, but the party in this county at this time is controlled and led by a set of bad men who are willing to sacrifice the best interests of the Territory for political aggrandizement, and it does seem to me that some of the Democrats in Oregon, and especially the capitalists of Portland, are taking a very unusual course in striving to exert a greater influence in this canvass than at any previous election held in this Territory. And now I would ask why is it? If it is answered purely upon the score of Democracy, I would then ask why those same individuals were so over anxious to secure the nomination of Mr. Moore, and why such men as Lancaster, McFadden and other sterling Democrats were asked to take back seats? To me the reasons are too plain to need comment. In order to show that I have good reasons to believe that there was a combination formed, and that my destruction was premeditated, I will mention two significant facts: The man who shot me, as also his immediate allies, were all armed for the occasion, and not one of the clique or class who met in secret midnight conclave and arranged the Democratic ticket in this county, have ever come near me since I received what may yet prove a fatal shot.

Fellow Citizens, these are bad men! I know them to be such! Keep them out of office and they will be powerless to do you political harm, and I ask each and every one of my friends who is entitled to vote, and those who believe that every American citizen has the right to exercise the elective franchise as to him it may seem best, and all who condemn the present course of my political enemies, to do so at the polls on Monday next in a manner that will not soon be forgotten.

And last of all I would say, if I knew I could not live to know the result of the coming election, I would say to my sons, friends and fellow citizens at large, vote for Salucius Garfielde for Delegate to Congress, and could die with a clear conscience. THOMAS J. FLETCHER.

[The undersigned hereby certify that Mr. Thomas J. Fletcher dictated every word of the above. H. COCHRAN. G. W. JONES.

SPIRITUALISTS' GROVE MEETING.—There will be held a three days meeting of the Spiritualists at Eli Cooley's Grove, "Travelers' Home," near Belpassi; on the road from Salem to Oregon City, commencing on Friday, June 18, 1869. All Mediums, Trance Speakers, Lecturers, Spiritualists and the public are invited to attend. MANY SPIRITUALISTS.

PEOPLE SHAKE—not with fear as to the future of Portland, but with the *Ague*, which can be cured in six hours and no return of the chills or dumb ague or its kindred ills, by using our celebrated and sure *South Carolina Ague Cure*. It is sold at the reasonable price of $1 00 per bottle. Call at "The Oregon Dispensary" for your SHAVE MEDICINES, for they are all pure, fresh and cheap and will be vouched for by the most eminent of the Medical Faculty in the city. Everybody patronizes the "Oregon Dispensary" in consequence of the above fact, and it requires five assistants to attend to the wants of our patrons. LORYEA & KALLENBERG, 73 First street, Portland.

THE RAILROAD TERMINUS.—By the arrival of the steamer *Oriflamme*, it will be positively known where the Railroad Terminus on the Sound will be established, and before long an army of men, equal to that of the grand Pacific Railroad, will be employed, who will build the road with all possible speed. The Depot, without further doubt, will be established at the well known house of KOHN & FISHEL, No. 91 Front street, where the finest, best and most stylish Clothing, Gents' Furnishing Goods and Dry Goods can always be had, at such low prices that the most crabbed purchasers must be pleased.

Owing to the great demand for Burnell Hats, we have received another large invoice of them. For a summer hat there is nothing cooler or of prettier style. The Ganfrim, Cuba, Clayton, Barclay, and many others of the latest styles can be found at J. U. MEUSSDORFFER & BROS., Cor. Front and Morrison streets

HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

### DATES TO JUNE 5.

#### Washington News

WASHINGTON, June 4.—The *Times'* Washington special says, the President is already fulfilling the promise that if the appointees of the new administration did not fill properly the positions, they would be removed. Two newly appointed collectors and one Assessor of Internal Revenue have been removed, for the reason that their performances fell short of their undertaking as public officers. This course will be pursued as far as the Internal Revenue service is concerned.

Commissioner Delano says with regard to the failure to collect the whole tax due from any given district, it is *prima facie* evidence that the officers are either inefficient, incompetent or dishonest, which will be considered sufficient ground for suspension.

CHICAGO, June 4.—The *Tribune's* Washington special says since the adjournment of Congress, the President has removed at least nine of his own appointees, one Indian Agent, two collectors, one assessor and three postmasters.

A board of three surgeons has been ordered to convene at West Point, Saturday, to examine the physical qualifications of members of the graduating class of the Military Academy.

Quite a full report of the doings at Annapolis has been received. The President and party of about 30 reached there by steamer at 9 30. The party was received with music and salutes. A dress parade of the Midshipmen took place at 11 o'clock, after which Judge Humphreys of Alabama, of the Board of Visitors, addressed the graduating class. The President delivered diplomas to the members. There are 78 graduates. A three mile boat race took place at 4 P. M. This afternoon a dinner was given in honor of the President. Five thousand invitations have been issued to the ball this evening. Three thousand persons to attend were in the city by the afternoon. The grounds and building will be brilliantly lighted and decorated. A large number of persons went over from Washington this afternoon.

WASHINGTON, June 5.—The police board passed an order that no member of the police force will be allowed to use intoxicating drinks without a written order from the proper medical officer.

ANNAPOLIS, June 4.—The ball to-night in honor of Mrs. Admiral Porter was a fine affair. It was attended by the President and wife, Secretary Borie, Secretary Cresswell, Gen. Sherman and many other distinguished persons.

WASHINGTON, June 4.—At the Bricklayers' Union, last night, a resolution was introduced for an immediate strike of the bricklayers at the Navy Yard, unless two colored men employed there be dismissed.

A New York special says notwithstanding Sickles has accepted the Spanish mission, there are certain conditions which render it doubtful whether he will enter on the duties. The Secretary of State yesterday addressed him a letter asking him if he was ready to proceed to his post, as the President was anxious we should have a representative there immediately on the retirement of the present Minister, which takes place July 1st.

Information has been received to day at the War Department indicating that the Indians are on the war path. General Sherman and other leading military men express great doubts as to the practicability of adopting the Quaker policy. A gentleman direct from the Indian country, says he would not be surprised to hear that some of the Quaker agents were among the first scalped.

The Postmaster General has removed ten clerks from the Finance Bureau and appointed others.

The receipts from internal revenue this week were over a million in currency. The balance in the Treasury is about twenty-three millions.

Several clerks and watchmen in the Navy Department have been dismissed, owing to the reduced appropriation.

The old national currency plates were to day melted down in a furnace at the Navy Yard.

#### Miscellaneous.

NEW YORK, June 4.—In a bar-room row last evening, Jos. Hartwell and Michael Kearney fired at the bar-keeper, Thomas Costello, wounding him in the shoulder and killing Richard Girdes, who was sitting in his own doorway with his family.

The Grand Lodge of the Masons of New York to day adopted a resolution terminating all intercourse with the Grand Orient of France till the Grand Orient shall withdraw recognition from the body styling itself the Supreme Grand Council of Louisiana.

HALIFAX, June 4.—In the House of Assembly last evening, Murray asked the appointment of another day for the consideration of the annexation resolution. The Attorney General desired postponement till next session. He intends to propose a further constitutional measure to get out of the Confederation. Till they were tried, it would be wrong to take visionary steps. He did not object to the Government or Parliament of England, but an appeal was expected to the higher courts in the realm to release Nova Scotia from the Confederation by declaring the Union not illegal. After further discussion, it was arranged by the Speaker, taking Murray's resolution as a notice that it would be moved on Monday.

BOSTON June 4.—The legislative com. on railroads are considering the bill to allow the Boston and Albany railroad to increase its capital stock to five millions, and extend its track from Boston to Deep Water, and build branch roads and additional tracks to Worcester.

OTTAWA June 4.—The New Foundland delegates have come to terms with the dominion government as to the considerations to be received by New Foundland on entering the Union. The terms are to be submitted to people of New Foundland at a general election next fall.

CHARLESTON, June 4.—The *Ansdel*, Captain Dolin, has arrived with several passengers saved from the *Mississippi*. This steamer struck a reef near Martinique and broke up, and her passengers and crew were saved by the steamers *Saumocei* and *Achon*.

POUGHKEEPSIE, June 4.—While some laborers on the Boston and Hartford Railroad were in the act of tamping a seam in a rock a premature explosion occurred, killing and mortally wounding several.

MOBILE, June 4.—The steamer *Mary Susan* bound up the river, sunk yesterday, seventy miles above Mobile. She had 900 barrels of freight, and is a total loss.

BINGHAMPTON, June 4.—Mayley & Bowen's soap factory burned to-day. Loss $10,000.

KANSAS CITY, June 4.—The stories of hanging railroad men on the Cherokee lands in Kansas are not confirmed, and are probably false. The settlers, however, lately received large quantities of powder, and are said to be preparing to resist any force which may attempt to build the railroad or protect its workmen. Several settlers have been driven out of the country on account of lukewarmness, and others have been warned to leave in forty hours, under penalty of hanging.

NEW ORLEANS, June 5.—A sub-marine diver, Robt. Schener, was drowned at Southwest Pass to day, while wrecking the steamship *Phantom*. The face glass of his armor broke, and he became foul among the timbers. It was impossible to bring him to the surface. A man named Buck descended in twenty five feet water without armor and recovered the body.

CHICAGO, June 5.—A *Tribune* special says the Cubans deny that the steamer *Hero* sailed in their interest, though she probably carried several passengers who will go from Jamaica to Cuba.

The case of Depuy brothers, pardoned by Johnson, and revoked by Grant, will be argued before Judge Blatchford to day.

A conspiracy to flood the country with counterfeit money from Canada has been discovered. The scheme was to have the money put in circulation simultaneously in all the cities north and west. The 4th inst. was the day fixed and the intention was to distribute as much as possible on that day. One of the party has been arrested and made a partial confession.

The *Sun* says the bill creating the Brooklyn Fire Department was divided so as to destroy the Metropolitan District and thus break up the present fire and other departments of New York. It will place all the Commissioners created by the Legislature in the control of the Tammany ring. The bill was drawn by A. Oakey Hall from consultation with Gov. Hoffman and other Democratic politicians.

CHICAGO, June 4.—During May the arrivals of all kinds of vessels at this port numbered 1 2 tonnage, 409,273. The clearances for the same period of 1869 were, of tonnage, 413,591.

In the McConnell murder trial at Jacksonville boy named Price testified that another boy named Andrew told him that he himself killed McConnell with a hammer, because he refused to pay him $10 he owed him. He said Andrew was twenty years old.

The officers and directors of the Rock Island and Pacific railroad left yesterday on an excursion to Council Bluffs. The train was drawn by the locomotive *America*, which took the first prize at the Paris Exposition.

Mr Drake a prominent and wealthy citizen of this city, head of the firm of Drake & Woodman, died suddenly yesterday of paralysis.

NEW YORK, June 5.—Wall street was remarkably quiet yesterday. The parties attempting to throw White Pine stock on the market met with no encouragement.

### BY ATLANTIC CABLE.

BERLIN, June 4.—The Parliament of the Zollverein assembled to day. The session was opened with a speech delivered in the name of the king. The speech announces the extension of the Zollverine, and assures Hamburg that commercial facilities will be greatly improved. It concludes with the declaration that the government of Germany is full of fervor for the promotion of the national interests. Dr. Wm. Kengestenburg, an eminent man of Bonn, died to day, aged 67.

PARIS, June 3.—Ernest Burndet, whose arrival from the city of Mexico is announced, went from St. Thomas under the authorization of the French Government, to look after the interests of the French in Mexico.

DUBLIN, June 4.—A large meeting of Orangemen was held in this city last evening to protest against the disestablishment of the Irish Church. It is estimated that over thirty thousand people were present. An appropriate speech and resolution was adopted.

Advices from Hong Kong are to May 11th. The French and other envoys had notified the Chinese Government that three days would be allowed for an apology for the insult to Count de Rochechouart.

LIVERPOOL, June 4.—The steamer *United Kingdom*, which left New York last April for this port, has not yet arrived. Great anxiety exists concerning her, but the New York agents by no means have given up hopes of her safety.

LONDON, June 4.—Lord Broughton died yesterday, aged 83.

The newspapers are still discussing the relations existing between England and the United States.

The *Standard* says the conduct of America in the lapse of time may be forgotten, but at the present it lacks justification.

The *Post* says any new attempt at settling the *Alabama* claims must come from America. It hopes due precautions will be taken to secure England against accepting a treaty almost with humility, to be repealed at last with contumely by the House of Commons.

This evening Bruce explained the report which has become current of cruelty to Fenian prisoners. He said this report arose from the necessity to repress violent and outrageous conduct since August. Rose was reported as the best conducted Fenian prisoner.

In the House of Lords this evening Earl Strafford de Redcliffe moved for a copy of the *Alabama* treaty. He said the Government had shown the greatest conciliation in its desire to maintain peace, and he trusted that when negotiations would be resumed between the two countries a calmer spirit than that which succeeded Sumner's speech would show its influence and that Americans would feel that there were demands that England could not entertain. He hoped such negotiations would place their relations upon a satisfactory footing, and all would rejoice when that end would be attained by the able men whom all admire.

Lord Clarendon regretted the unavoidable delay in furnishing the papers called for. He traced the history of the negotiations, and said the House of Commons was not entitled to assume that a majority of the Senate and people of the United States supported Sumner's demand. He believed that without intervention the sympathetic feeling and good sense of all Americans would ultimately prevail. The friendly feelings of the United States were reciprocated. He would shrink from no sacrifice to maintain peace, but national honor must be maintained. He was not aware of the nature of Motley's instructions, but he hoped what had occurred would promote and not hinder negotiations, as the terms that England was willing to concede were well known.

The French trans-Atlantic cable is completed.

The personal property of Edward Cunard in this country has been sworn at £300,000.

PARIS, June 4.—It is semi officially stated that the French Government is opposed to the neutralization of the Suez Canal.

MADRID, June 4.—Gen. Deroda is to sail instantly for Cuba, in reply to the demand of Gen Dulce for immediate relief from the Captain Generalcy of that island.

ATHENS June 4.—The Greek elections are ended and show a large majority in the Chambers for the new ministry.

QUEENSTOWN, June 4.—The steamship *England* from New York has arrived.

### NEVADA.

Joseph French has sold his quartz mill at Silver City to J. G. Fair and J. W. Mackay for $50,000.

The Imperial Empire shaft, now down 1,130 feet, indications at present not very encouraging.

One new case of small pox reported at Gold Hill this morning. None reported for several days in Virginia. A fine shower, with thunder and lightning, cooled our atmosphere this afternoon.

### FROM THE NORTH.

VICTORIA, June 5.—It is reported that on account of the threatened Fenian invasion, H. M. S. S. *Zealous* has been ordered back to Esquimalt, accompanied by the gunboat *Boxer*. Indian scouting parties are being organized along the coast, and to furnish early information of the landing of any large body of men. Notwithstanding these preparations by the authorities, the citizens consider the Fenian movement at San Francisco in the light of a joke, being too ridiculous to claim serious attention.

#### Thunder Storm at Yreka

YREKA, June 5.—We have had the heaviest thunder and lightning here this afternoon and evening ever known here. It was almost incessant from 4 till 9 P. M.

### Grant's Advisers — Sketches of Prominent Members of the Cabinet.

(Washington Correspondence Cincinnati Commercial.)

Boutwell may not be a member of the church, but he is a most exemplary man. He is a Republican from principle, and not from interest. He is thoroughly honest in politics and business. He does not believe in party double dealing, nor in politicians who are always politic. He would scorn to run a campaign by tricks and powder. If the principle were not strong enough to bear its own weight, it were not, in his eyes, worth bolstering up. Going upon this course, he does not, as a consequence, please the politicians who care for principle only as it brings them success, who would resort to any trick and subterfuge, and even dishonesty, to win a campaign. Butler, Logan, Bingham and Williams were impeachment managers, and wanted Johnson convicted because they deemed him dangerous to the party, and because it would benefit the party in the way of patronage to displace Andrew Johnson with Ben Wade. Boutwell wanted Johnson convicted and removed because he thought him guilty. Many people mistake Boutwell's uprightness and honesty for ability. Those who know him best give him credit of having great talent, but they do not consider him a great man. The decent portion of the people, however, think him fully capable of being Grant's Secretary of the Treasury.

The politicians look upon the Attorney General's office as the tub of Diogenes. They fear to approach it. They know it contains a man that will go ten miles out of his way to quarrel with somebody. And yet Judge Hoar is entitled to patient forbearance on the part of the public. He is cross, and surly, and suspicious, not because he prefers to be, nor because he dislikes mankind on principle, but because he has been trained to look upon mankind as something beneath him. For twenty years he has been on the bench in Massachusetts. I need hardly tell you that the ermine is almost as much respected there to this day as it was in the old world in olden times. A Supreme Court Judge in Massachusetts is something to tremble before. People take off their hats to him in the street, and he is looked upon almost with religious reverence. You know they don't do that way in Washington. They think, like the Irishman, that one man is as good as another, if he behave himself, and a d—d sight better. So they treat the Attorney General just as they do other people, and the result is Hoar is constantly in hot water. You know what a blunt fellow Schenck is, he is always willing to quarrel, and so is Hoar and they sometimes come together. A quarrel is sure to follow, but each treasures no resentment, and so they continue friends. But they are always saying sharp things of each other. They had a row not a great while ago at a private dinner party. Hoar is objectionable to the politicians, as Boutwell is, because he has too much principle and too little politics. He is one of the oldest Abolitionists in the country, and is one of those who met at Pittsburg to organize the Republican party. He is not a wire puller, and therefore not fit to be Attorney General. He is said to be pleasant socially, but is accused of having too many of the Puritan exclusive ideas of respectability so common in Massachusetts. I do not think he will remain in the Cabinet longer than the present summer.

Rawlins is such an agreeable gentleman that the politicians sometimes lose sight of the fact that he has always been a Democrat. Everybody likes Rawlins, but few believe him capable of filling a cabinet office. His best friends, however, assert that he is as capable of being Secretary of War as Grant is of being President. The politicians, on the whole, are willing to let Rawlins stay. His health is in a very low state. Consumption has fastened its fangs about him and will surely bring him down. He goes over the Pacific Railroad this summer, spending much time on the plains, hoping to win back his health.

What can I say of Borie? The politicians, the office seekers and the office-holders are down on Borie, and I guess the decent people are. They need not be, however. He is an agreeable man personally, has great wealth, entertains handsomely, and is at least as capable as Welles was. I mean to say, he would be as capable if he did not permit himself to be made a quill of by Admiral Porter. The politicians would, generally, I think, prefer Borie to Porter, and I am sure the navy officers would. I should not be surprised if Borie resigned in the course of the year, because he is not allowed many privileges aboard shipboard. He can barely get permission to go home every Friday night and return on Monday or Tuesday, so firmly does Porter hold his wheel. He has the manners of a Frenchman, and is a lover of good things.

Our political friends regard Fish as an old fogy, simply because he will not permit the Senators and members to humbug their constituents, if he can help it. You know the reason Washburn called him "a superannuated old lunkhead." It was because Fish considered that he was Secretary of State after he assumed the office. Washburn's trouble was that he wanted to be Secretary of State and Minister to France at the same time. Fish thought that as long as he was not fit to be Secretary of State he ought to be satisfied with the French mission. At last Fish insisted upon being Secretary and so didn't please Washburn because he would not allow him even to make the appointments for the department. If the politicians could use Fish in their little jobs, he would be the most popular man in the city.

### Sugar Culture.

In the year 1867 our import of foreign sugar, retained for consumption, amounted to eight hundred and thirty-six millions of pounds. Our domestic product of cane and maple sugar, in 1869 was three hundred and forty-one millions of pounds, of which we exported six and a half millions of pounds. There being no necessity for, or advantage in, greater accuracy, we may put our annual consumption now at eleven hundred millions of pounds, and France, with a population about equal to ours, produced of beet-root sugar, in 1865, five hundred and seventy-five millions of pounds, of which she exported to England one hundred and six millions. The import of foreign sugar in France for that year we have not, but it matters not. The estimates of French statisticians, based upon the past growth of this product, fixed a thousand millions as the probable product of the year 1877. Supposing that the consumption will grow with the supply, France will, in seven or eight years, grow all her own sugar, and very closely equal the consumption of Great Britain or the United States—that is, these countries will be each consuming a thousand to eleven hundred millions—England importing the whole of hers, we the two-thirds of ours and France completely supplying herself. The cost to Great Britain in the countries of production is about fifty millions of dollars; to us, thirty five millions for the quantity imported; to France, in the near prospect, nothing, with another great advantage, that her supply and its price will not be affected by the political disturbances occurring in the semi tropical countries, which are the chief producers of the sugar of commerce.

It is nearly sixty years since the manufacture of beet-root sugar was first attempted in France. Thirty-three years ago it amounted to eighty-four millions of pounds; in the next twenty years it grew 130 per cent., or at the rate of 3½ per cent. per annum; and between 1856 and 1866 its product increased 200 per cent, or 12 per cent. per annum; and it is quite capable of maintaining this rate of increase for ten, twenty or thirty years to come.

The English are taking measures to establish this manufacture. They are feeling the inundation of French and Belgium sugars. But it is not clear that their soil is well adapted, and the enterprise is liable to another drawback with them. The molasses and impure juices of the beet-root are good for nothing except for the manufacture of alcohol. The whole net profit in France is derived from this product; but in England alcohol is so heavily taxed that this manufacture would yield nothing. For many reasons, it is not at all likely that the English will succeed in the attempt to any encouraging extent.

We need not argue the feasibility of the beet root sugar culture in this country. We certainly have the soil and climate somewhere, and the capital and enterprise ready for the undertaking. It is sufficiently well understood to be started in Illinois, Indiana, and California, for instance, and bids fair to succeed in these States, and thence to spread to whatever regions shall be found adapted. We need not depend upon the annexation of Cuba to naturalize the domestic supply, nor upon the cane or the maple, in or about the Union, as sole resources. If France has become self supplying, and able, after the next half dozen years, to raise as much as Great Britain or the United States consume, it will not be long before the beet root, helping our cane and maple product, will make us self supplying and independent. The three sources thus united, with such differences of condition as may obtain among them, will also be a good defense against the unfriendliness of the seasons, the beet-root being in fact the best security against a failure of crops. Our maple sugar is not capable of any great extension, nor is the cane. Ten years of well addressed efforts could probably be made to cover our whole demand, keep pace with its growth afterward and yield beside a larger and steadier revenue than our wheat in foreign markets.

One thing certainly is demonstrated by the experience of France and Belgium—it can be sold in the world's market in the face of all other sugars wherever produced, and another thing, of no less importance—the prodigious rapidity of growth in the product of which it is capable. Moreover, both as nutriment and luxury, its abundance and superabundance is to be hailed as one of the best blessings which the earth has been made to yield under modern agriculture.—*N. Y. Tribune.*

RELIGION AND REBELLION.—What rebellion has done for the South and how is well exemplified in a recent statement made by Rev. Mr. Tapier, of the Episcopal denomination, concerning the losses sustained in his own diocese. In 1860 there were seventy Episcopal clergymen in South Carolina—now only fifty three, and but forty of these at work. There were likewise seventy parishes—now only fifty-three, and but forty two in which religious services are held. Of the funds of the Church, he estimates that five hundred and sixty thousand dollars have gone into Confederate bonds and other bonds, stocks, or lands now worthless. How great the wreck, and how directly traceable to the sin of rebellion! Had these funds, instead of being voluntarily offered to strengthen "secession," sedition, and rebellion, been, when the Form of war came, judiciously and quietly invested in land, the Church could now have nearly owned the State.

## FINANCE AND COMMERCE.

### WEEKLY REVIEW.

PORTLAND June 4, 1869

Our latest New York dispatches quote gold at 1.3⅝; San Francisco legal tender rates 72.

*The stringency of the money market on this coast as* well as throughout the country is felt in commercial circles to a great extent. The following remarks upon the subject from the San Francisco *Herald* of the 28th ult., as to some of the causes which have been instrumental in bringing about this depression are well directed and will be found of interest to business men generally:

There is no disguising the unpleasant fact that the San Francisco money market is undergoing a very severe pressure. Money is scarce—remarkably so—and rates have been put up in proportion. The most favored borrowers are paying 1½@2 ₽ cent per month, while many stock brokers give 5 ₽ cent *for minute money*. There is an indefinable sense of depression in business circles arising mainly from the scarcity of money. There are $800,000 locked up in the Sub-Treasury, $1,500,000 in the State Treasury, and a large sum in the City Treasury. Much money has been sent East to take advantage of the rise in gold in that market. Large sums have drifted toward White Pine, where it remains locked up or gone East, and for paying the laborers on the Central Pacific Railroad. Other large amounts have been consumed in making extensive city improvements. Homestead associations, which have been carried to the pitch of speculation, have absorbed heavy sums in small installments. Our domestic produce has declined so much in price that to express the same value requires twice the quantity requisite one year ago. The Chinese have got possession of much coin and keep it secreted and out of the market. A project is on foot to utilize these means by establishing a Chinese savings and loan society. It has found favor sensibly with leading Chinese merchants and the heads of their great companies; but it is barely possible that Chinese funds are already employed by the Chinese companies and leading merchants. A variety of other reasons may be assigned for the existing stringency. One hopeful feature is the fact that deposits are increasing slowly in some of our savings and loan societies, showing that some of the money is returning.

Mr. Boutwell's policy, as declared by himself, has imparted a feeling of confidence to financial circles. Everybody breathes freer, under the knowledge that our terrible public debt is undergoing steady diminution. The effect upon our bonds cannot but be beneficial. European capitalists, realizing the unbounded resources of the United States, and the honorable intention to liquidate our indebtedness actually carried out, will not fail to profit by the opportunity now offered to obtain double rates of interest over those paid on European securities. They will also perceive that the policy of the United States is decidedly in favor of peace with all the world "and the rest of mankind." Although our relations with England are not so satisfactory as they might be, yet the selection of Mr. Motley is the reverse of unfriendly. The *Alabama* matter is simply dropped for the present, without any hostile expression on our part. The British press are agitating the subject too much, and some of their journals use language rather too harsh for the interests of peace. The feverish condition of the gold market has been mainly caused by the aggressive tone of the English press, our ticklish relations with Spain, and the unfavorable movement of exchanges with Europe. We think, however, that the time for the subsidence of these causes has nearly come.

The supply of available tonnage in port is considerably in excess of the current demand, and from now on till July, when the new wheat crop will be in market in quantity, we look for little business in freights. No grain charters are offering, and the present supply of breadstuff is insignificant.

We are informed by telegraph that some New York financiers have been attempting to divert Mr Boutwell from his declared purpose of retiring bonds with surplus gold, and advising the purchase of 3 ₽ cent. certificates. This is not the first time that the same influences have been brought to bear, and it is gratifying to learn that in each case they have been defeated. The actual retirement of bonds must necessarily increase their value in all markets, and confer upon them an enhanced purchasing power more than counteracting any scarcity caused by their retirement. The argument that we are sending bonds to Europe instead of gold to pay for imports, and that it is bad policy to decrease their volume, is of the flimsiest description, only paralleled by the outcry for additional issues of currency.

The produce markets of the Pacific coast were never duller, perhaps, than at present. This is especially true of grains, the staple products of California and Oregon. How long such a state of things will continue is uncertain, but very likely until a market for our surplus crops is found in the countries west of us.

Our local markets present but few changes. Trade is not lively, although, everything considered, our merchants and grocers are doing well.

### Weekly Retail Family Market.

PORTLAND, June 4, 1869

Our family market is abundantly supplied with all the fruits and vegetables in season, which are offered at prices much nearer within the reach of all. Cherries and *strawberries are plentiful and every day is adding to the* amount in the market. The unreasonably high figures at which the first of these fruits were sold in this market has been very materially cut down, and they now bring but little more than they are really worth.

## THE APPETITE FOR TOBACCO DESTROYED!

LEAVE OFF SMOKING AND CHEWING THE POISONOUS WEED, TOBACCO

ORTON'S PREPARATION!

ESTABLISHED 1866.

One box of Orton's Preparation is warranted to destroy the appetite for Tobacco in any person no matter how strong the habit may be. If it fails in any case the money will be refunded. It is perfectly safe and harmless in all cases. It is almost impossible to break off the use of Tobacco by the mere exercise of the will. Something is needed to assist nature in overcoming a habit so firmly rooted. With the help of the Preparation there is not the least trouble. Hundreds have used it who are willing to bear witness to the fact that Orton's Preparation completely destroys the appetite for Tobacco, and leaves the person as free from any desire for it as before he commenced its use. The Preparation acts directly upon the same glands and secretions affected by Tobacco, and through these upon the blood, thoroughly cleansing the poison of Tobacco from the system and thus allaying the unnatural cravings for Tobacco. *No more hankering for Tobacco after using Orton's Preparation.* Recollect it is warranted.

The time taken to allay all desire for Tobacco by the use of the Preparation varies slightly in different persons, the *average* time being about *five days*. Some have no desire for Tobacco whatever after using the Preparation *two days*.

The *Health* and *Purse* of every Tobacco user in the country calls loudly, ABANDON THE USE OF TOBACCO.

RECOMMENDATIONS.

The following are a few selected from the multitude of recommendations in our possession.

We, the undersigned, *hereby certify that we have used* Orton's Preparation for the purpose of destroying the appetite for Tobacco, and can assure those who are suffering from this habit that Orton's Preparation will certainly destroy the appetite for Tobacco *quickly and permanently*, and without any bad effect upon the health and without creating an appetite *either for the Preparation or any substitute.*

W. P. Heald, Bangor, Maine; J. Moody, Southport, Indiana; E. W. Adkins, Knoxville, Tenn.; John Merrill, Bangor, Maine; J. Bunch, Springfield, Tenn.; W. D. Harrington, West Point, Georgia.

*From Samuel Cessidly, Editor Journal & Argus*

PETALUMA, CALIFORNIA, Dec 14, 1868.

For about twenty years I had used Tobacco in its various forms, and for the past eight years had been an inveterate smoker. Becoming satisfied that the excessive use of this narcotic was seriously impairing my health, I determined if possible to check myself of the habit. Hearing of Orton's Preparation for destroying the appetite for Tobacco, I sent to Portland, Me., for a *box of the medicine, which I received through the mail* on the 17th of November. A month has not elapsed and yet the medicine has effectually relieved me from any yearning or desire to use Tobacco in any form. The Preparation is not more difficult or unpleasant to take than to commence chewing gum. I conscientiously believe the Preparation will have the promised and desired *effect in every instance where it is given a fair trial.* Upon that belief and from an honest desire to assist those who wish to break away from the slavish appetite for Tobacco I offer this testimonial.

SAMUEL CESSIDLY.

*Beware of Counterfeits and all articles purporting to be like this, of the same name or otherwise. The great popularity of Orton's Preparation has induced unprincipled persons to attempt palming upon the public counterfeit and inferior articles. Purchasers will please order directly from the Proprietor, or his duly authorized Agents.*

The price of Orton's Preparation is $2 per box, or three boxes for $5, sent by mail to any part of the country securely sealed from observation, with postage paid on receipt of price.

*How to send money by mail.*—Enclose the amount in a letter, seal carefully, register the letter and take a receipt for it of your Postmaster. Money sent by mail at above directed at my risk. Address

## Medical.

## HIRAM SMITH'S

Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

E. B. MOORE, NATHANIEL BELL,
A. L. WALLACE, G. R. WARD,
Mrs. MONTGOMERY, JOHN M. HOLLOWAY,
W. D. PORTER, ROBT. RAMSEY,

And others in that vicinity.

Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan.

Prepared by SMITH & ROACH,

## TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, sweating and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies, so that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important for all who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, feted breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are laboring under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon, stating symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain *directions for use, for Ten Dollars, sent in a registered letter* or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and impostors, who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and too lazy to work at their trades. Some are tailors, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney st. corner Commercial, (Private Entrance on Commercial) San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE ENVELOPE. Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian.*
